# FIGHT FOR HEALTH

War must not endanger the health of American women and future generations. The committee on women in industry appointed by the National Council of Defense meeting here yesterday took action to prevent the lowering of present standards, in the sudden impulse of women to enter industries to aid their nation at war. All organizations working for the betterment of women in industry will be insided to work through a central committee. The standards in the sudden impulse of women to enter industries to aid their nation at war. All organizations working for the betterment of women in industry will be insided to work through a central committee. The finance committee received yeater-flag its first large report from the members of the Mashington Rotary Club Canvass Business Men for Contributions.

The District of Columbia Chapter Red Cross War Service Fund now exceeds 144,000.

The finance committee received yeater-flag its first large report from the members of the Washington Rotary Club, who as members of the finance committee, are canvassing professional and business men.

All organizations working for the betterment of women in industry will be inside to work through a central committee. The District Chapter is the first of the 150 Red Cross chapters in the country of the 150 Red Cross chapters in the country of the 150 Red Cross Constitutions.

The District of Columbia Chapter Red Cross War Service Fund now exceeds 144,000.

# RANDLE WOULD RESCUE

Wilson from Arthu E. Randle, real estate operator in this city.

"Already a British army is within fifty miles of Jerusalem," the letter continues.

"So no time should be lost in equipping and starting an expedition. For this cause, I offer my humble services and arting an expedition. For this cause, I offer my humble services and arting an expedition of the Holyland from its barbarous oppressors.

"To be enrolled as a private in this company I would consider an honor, as I look upon such an expedition as a modern drained of the flowing and soft the flaments of all two believers in the diwine in the flaments of all two believers in the diwine in anywer to the flawform."

The beautiful animal was his pedigree written in Arabic. Translated, it reads:

"In the name of God, the merciful! The cause of the present writing is that two witness that the white horse of the first breed of Nedglet. However, in the diwine mare, Hadha the famous, and whose father is the bay horse Dahrouge of the horses of the tribe Benihaled. We testify on our conscience and fortune that he is the breed concerning which the prophet said: "The true runners when they strike fire; they grant prosperity until the day of judgment." We testify what is known and God knows we are true witnesses."

Six signatures verify this pedigree.

When the Ringling Brothers exhibit there Derrish will be seen twice. First on the vast stage on which the fairyland.

TRIKS AT MAINE MEETING. The French French strom Verdum to Miceslia," was the subject of a leable of the Edward R. Chark, Washington expondent of the Chicago Evening sa, before the mambers of the Maine to Association in the W. C. T. U. ms, 552 Stath street northwest, last

The meeting was the last which the faine State Society will hold until next al. Aluch routine business was cleared p and a summer program of activities laced in the hands of the various comultiess of the association.

### FLUSH THE KIDNEYS!

### How Uric Acid Causes Gout, Rheumatism, Lumbago

(By L. H. SMITH, M. D.)

It was not until the discovery by Sir Arthur Gerod, in 1848, that the blood of gouty patients contained uric acid in an excessively large amount, that much attention was paid to this subject. Later scientific men

mation is set up in the nearby tissues. Hague has said, that "gout is rheumatism, and rheumatism is gout." If uric acid is formed in excess within the body it is passed on to the kidneys, which act as a filter to pass off this poison. If the excess is not excreted by the kidneys, it is distributed thru the tissues. The choice sites for such storage are in the joints, muscle-sheaths, where the circulation is weak-

learned that in gout, also rheumatism, the kidneys do not work properly to throw off the uric acid poison; consequently uric acid crystals are deposited in and

about the joints, in the muscles, where an inflam-

est, and where also the alkalinity of the blood is lowest. Consequently we must do everything to throw off this uric acid poison, and simple methods are best. Flush the kidneys by drinking six to eight glasses of water between meals. During winter months the circulation is apt to be sluggish and the blood stream retarded. Eat less meat, drink more water, and take ANURIC (double or triple strength), after each meal and at bed time for several weeks at a time and you will be free from uric acid and the diseases that follow.

The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physican of wide experience - such as Doctor Pierce the Invalids', Hotel and Surgical Institute, in Buffalo, New York. Send him ten cents for sample of his new discovery, ANURIC. Write him your symptoms and send a sample of urine for test.
